ERC Work Programme 2023

European Research Council

Established by the European Commission

Grant	Objectives	Maximum amount and duration of the grant
Starting Grant	Support for excellent Principal Investigators at the career stage at which they are starting their own independent research team or programme. Principal Investigators must demonstrate the ground-breaking nature, ambition, and feasibility of their research proposal.	Up to EUR 1 500 000 for a period of 5 years. Additional funding up to EUR 1 000 000.
Consolidator Grant	Support for excellent Principal Investigators at the career stage at which they may still be consolidating their own independent research team or programme. Principal Investigators must demonstrate the ground-breaking nature, ambition, and feasibility of their research proposal.	Up to EUR 2 000 000 for a period of 5 years. Additional funding up to EUR 1 000 000.
Advanced Grant	Support for excellent Principal Investigators at the career stage at which they are already established research leaders with a recognised track record of research achievements. Principal Investigators must demonstrate the ground-breaking nature, ambition, and feasibility of their research proposal.	Up to EUR 2 500 000 for a period of 5 years. Additional funding up to EUR 1 000 000.
Synergy Grant	Support for a small group of two to four Principal Investigators to jointly address ambitious research problems that could not be addressed by the individual Principal Investigators and their teams working alone. Synergy projects should enable substantial advances at the frontiers of knowledge, stemming, for example, from the cross-fertilisation of scientific fields, from new productive lines of enquiry, or new methods and techniques, including unconventional approaches and investigations at the interface between established disciplines. The transformative research funded by Synergy Grants should have the potential of becoming a benchmark on a global scale. Principal Investigators must demonstrate the ground-breaking nature, ambition, and feasibility of their research proposal. Principal Investigators must also demonstrate that their group can successfully bring together the scientific elements necessary to address the scope and complexity of the proposed research question.	Up to EUR 10 000 000 for a period of 6 years. Additional funding up to EUR 4 000 000.
